Token Name	Description	Symbol
addOp	Addition and subtraction binary operators.	+, -
assignOp	Assignment operators.	=, +=, -=, *=, /=
char	Character literal.	'X', 'o', '\\', '\'', '\"'
comma	Comma.	,
comparator	Comparison operator.	<, >, >=, <=, ==, !=
floatLiteral	Floating point value.	3.1459, 314159E-5
incrOp	Increment or decrement operator.	++, --
identifier	Identifier	main, printf, _x, myFunc
intLiteral	Integer value	0, 212, 215u, 30ul
leftBrace	Left brace.	{
logicalNot	Logical unary operator.	!
leftParen	Left parenthesis.	(
multOp	Multiplication and division operators.	*, /
rightBrace	Right brace.	}
rightParen	Right parenthesis.	)
semicolon	Semicolon.	;
string	String.	"Hello\tWorld\n\n", "hello, dear", "hell\"o"
